DETAILED ACTION

Allowable Subject Matter

1. Claims 1, 3-7, 9-17, and 20-21 are allowed.
2. The following is an examiner's statement of reasons for allowance: the prior art, individually or in combination, fails to disclose, teach or suggest the invention. The closest prior arts, Kobayashi (US 6,014,595) and Satoh et al (US 6,489,887) disclose executing a yaw motion in response to vibratory motion and a picture image pick-up device to track the lane markings, respectively. Neither Kobayashi or Satoh et al discloses wherein the apparatus is adapted to provide the host vehicle a first desired-yaw moment controlled variable to avoid deviating from the driving lane in the event that the apparatus cannot detect a lane marking line and the vehicle is traveling on the predetermined irregularities formed in close proximity to either one of the left-hand side lane marking line and the right-hand side lane marking line of the driving lane, wherein the apparatus is adapted to provide a second desired yaw-moment controlled variable to avoid deviating from the driving lane in response to the host vehicle's lane deviation tendency detected based on lane marking line detection and wherein the apparatus is adapted to correct the second desired yaw-moment controlled variable to a large value when the vehicle is traveling on the predetermined irregularities formed on or close to either one of a left-hand side lane marking line and a right-hand side lane marking line of the driving lane.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
